

FECA

PRESS KIT

who we are

In November 2019 we, a group of volunteers, launched Fundacion Educador Consciente (FECA) Aruba. Based on the program Conscious Discipline®, we strive to improve the emotional intelligence of adults so that they can develop social-emotional skills in our children. We do this by organizing workshops, and by creating awareness on our Facebook page. At this moment we have 4 Certified Instructors of this program and a pool of approximately 15 volunteers dedicated to promote this program.

our mission

To contribute to the social-emocional development of children by means of sharing knowledge and skills based on Conscious Discipline® with all educators alike, whether parent, teacher, other parental figures and community in general; thus enabling them to handle emotion and conflict better.

our vision

To be a professional expertise center for the application of Conscious Discipline® in Aruba and the Caribbean.
